### INDEPENDENT AUDITOR'S REPORT

The Honorable Board of Education Rocky Mountain School District CO24 Adair County, Oklahoma

I have audited the accompanying combined financial statements - regulatory basis - of Rocky Mountain School District No. CO24, Adair County, Oklahoma as listed in the table of contents, as combined financial statements, as of and for the year ended June 30, 2013.

### Management's Responsibility for the Financial Staements

Management if responsible for the preparation and fair presentation of these financial statements in accordance with the financial reporting regulations prescribed or permitted by the Oklahoma State Department of Education as described in Note 1, to meet the requirements of the Oklahoma State Department of Education. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

### Auditor's Responsibility

My responsibility is to express an opinion on these financial statements based on my audit. I conducted my audit in accordance with auditing standards generally accepted in the United States of America and Government Auditing Standards, issued by the Comptroller General of the United States. Those standards require that I plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit includes performing procedures to obtain evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgement, including the assessment of the risk of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, I express no reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my adverse and qualified opinions.

### Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles

As discussed in Note 1, these combined financial statements are prepared on a regulatory basis of accounting conforming with the accounting practices prescribed by the Oklahoma Department of Education and budget laws of the State of Oklahoma which is a comprehensive basis of accounting other than accounting principles generally accepted in the United States of America. The effect on the financial statement resulting from the use of their regulatory basis of accounting and presentation as compared to accounting principles generally accepted in the United States of America although not reasonably determined, are presumed to be material.

### Adverse Opinion on U.S. Generally Accepted Accounting Principles

In my opinion, because of the significance of the matter discussed in the Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles paragraphs, the financial statements referred to above do not present fairly, in accordance with accounting principles generally accepted in the United States of America, the financial position of Rocky Mountain School District No. CO24, Cherokee County, Oklahoma, as of June 30, 2013, or the revenues, expenses, and changes in net position and, where applicable, cash flows thereof for the year then ended.

### Opinion on Regulatory Basis of Accounting

The financial statements referred to above do not include the general fixed asset account group, which should be included in order to conform with accounting and financial reporting regulations prescribed or permitted by the Oklahoma State Department of Education. The amount that should be recorded in the general fixed asset account group is not known.

However, in my opinion, except for the effects of the omission of the general fixed assets account group, the combined financial statements referred to in the first paragraph present fairly, in all material respects, the assets, liabilities and fund balances - regulatory basis of the Rocky Mountain School District CO24, Adair County, Oklahoma, as of June 30, 2013, and the revenues collected and expenditures paid and encumbered, of each fund type, for the year then ended, in accordance with the regulatory basis of accounting described in Note 1.

### Other Reporting Required by Government Auditing Standards

In accordance with Government Auditing Standards, I have also issued my reported dated October 29, 2013, on my consideration of the Rocky Mountain School District CO24, Adair County, Oklahoma's internal control over financial reporting and my tests of its compliance with certain provisions of laws, regulations, contracts and grants agreements and other matters. The purpose of that report is to describe the scope of my testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards, and should be considered in assessing the results of my audit.

### Other Matters

My audit was conducted for the purpose of forming an opinion on the fund type and account group with the combined financial statements. The combining fund statements and schedules and other schedules as listed in the Table of Contents are presented for purposes of additional analysis and are

not a required part of the combined financial statements of the Rocky Mountain School District CO24. Such information has been subjected to the auditing procedures applied in the audit of the fund type and account group financial statements within the combined financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used in accordance with auditing standards generally accepted in the United States of America. In my opinion, the other supplementary information is fairly stated in all material respects in relation to the combined financial statements taken as a whole on the regulatory basis of accounting described in Note 1.

October 29, 2013

NOTES TO THE FINANCIAL STATEMENTS

### NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the Rocky Mountain School District No. CO24 (the "District") have been prepared on a regulatory basis of accounting which is another comprehensive basis of accounting other than accounting principles generally accepted in the United States of America. Accordingly, the accompanying financial statements are not intended to present financial position and results of operations in conformity with accounting principles generally accepted in the United States of America. The accounting policies are prescribed by the Oklahoma Department of Education and conform to the system of accounting authorized by the State of Oklahoma. The following is a summary of the more significant accounting policies.

### A. REPORTING ENTITY

The District is a corporate body for public purposes created under Title 70 of the Oklahoma Statutes, and accordingly is a separate entity for operating and financial reporting purposes. The district is part of the public school system of Oklahoma under the general direction and control of the State Board of Education, and is financially dependent on State of Oklahoma support. The general operating authority for the public school system is the Oklahoma School Code contained in Title 70, Oklahoma Statutes.

The governing body of the District is the Board of Education composed of elected members. The appointed superintendent is the executive officer of the District.

In evaluating how to define the District, for financial reporting purposes, management has considered all potential component units. The decision to include a potential component unit in the reporting entity was made by applying the criteria established by the Governmental Accounting Standards Board (GASB). The basic--but not the only--criterion for including a potential component unit within the reporting entity is the governing body's ability to exercise oversight responsibility. The most significant manifestation of this ability is financial interdependency. Other manifestations of the ability to exercise oversight responsibility included, but are not limited to, the selection of governing authority, the designation of management, the ability to significantly influence operations, and accountability for fiscal matters. A second criterion used in evaluating potential component units is the scope of public service. Application of this criterion involves considering whether the activity benefits the District and/or its citizens, or whether the activity is conducted within the geographic boundaries of the District and is generally available to its patrons. A third criterion used to evaluate potential component units for inclusion or exclusion from the reporting entity is the existence of special financing relationships, regardless of whether the District is able to exercise oversight responsibilities. Based upon the application of these criteria, there are no potential component units included in the District's reporting entity.

### NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

### A. REPORTING ENTITY (continued)

The Board of School Trustees (Board), an elected three member group constituting an on-going entity, is the level of government which has governance responsibilities over all activities related to public school education within the jurisdiction of the Local Dependent School District. The Board receives funding from local, state and federal government sources and must comply with the requirements of these funding source entities. However, the Board is not included in any other governmental "reporting entity" as defined in Section 2100, Codification of Governmental Accounting and Financial Reporting Standards, since Board members are elected by the public and have decision making authority, the power to designate management, the responsibility to significantly influence operations and primary accountability for fiscal matters.

### B. FUND ACCOUNTING

The District used funds and account groups to report on its financial position and the results of its operations. Fund accounting is designed to demonstrate legal compliance and to aid financial management by segregating transactions related to certain district functions or activities.

A fund is a separate accounting entity with a self-balancing set of accounts. An account group, on the other hand, is a financial reporting device designed to provide accountability for certain assets and liabilities that are not recorded in the funds because they do not directly affect net expendable available financial resources.

Funds are classified into three categories: governmental, proprietary, and fiduciary. Each category, in turn, is divided into separate "fund types."

### Governmental Fund Types

Governmental funds are used to account for all or most of a government's general activities, including the collection and disbursement of earmarked monies (Special Revenue funds), the acquisition or construction of general fixed assets (Capital Projects Funds), and the servicing of general long-term debt (Debt Service Funds).

<u>General Fund</u> - The General Fund is used to account for all financial transactions except those required to be accounted for in another fund. Major revenue sources include state and local property taxes and state funding under the Foundation and Incentive Aid Program.

Expenditures include all costs associated with the daily operations of the schools except for programs funding for building repairs and maintenance, school construction and debt service on bonds, and other long term debt. The General Fund includes federal and state restricted monies that must be expended for specific programs.

### NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Special Revenue Funds - The first Special Revenue Fund is the District's Building Fund. The Building Fund consists of monies derived from property taxes levied for the purpose of erecting, remodeling, or repairing buildings and for purchasing furniture and equipment.

The second Special Revenue Fund is the Child Nutrition Fund, a Special Revenue Fund used to account for monies derived from federal and state reimbursement and local food service collections.

<u>Debt Service Fund</u> - The Debt Service Fund is the District's Sinking Fund, and is used to account for the accumulation of financial resources for the payment of general long-term debt principal, interest, and related costs. The primary revenue sources are local property taxes levied specifically for debt service and interest earnings from temporary investments. The District did not have a Debt Service Fund during the 2012-2013 school year.

<u>Capital Projects Fund</u> - The Capital Projects Fund is the District's Bond Fund which is used to account for the proceeds of bond sales to be used exclusively for acquiring school sites, constructing and equipping new school facilities, renovating existing facilities, and acquiring transportation equipment. The District did not maintain a Capital Projects Fund during the 2012-2013 school year.

### Proprietary Fund Types

Proprietary Funds are used to account for activities similar to those found in the private sector, where the determination of net income is necessary or useful to sound financial administration. Goods or services from such activities can be provided either to outside parties (Enterprise Funds) or to other departments or agencies primarily within the District (Internal Service Funds). The District does not have any Proprietary Funds.

### Fiduciary Fund Types

Fiduciary Funds are used to account for assets held on behalf of outside parties, including other governments, or on behalf of other funds within the District. When these assets are held under the terms of a formal trust agreement, either a nonexpendable trust fund or an expendable trust fund is used. The terms "nonexpendable" and "expendable" refer to whether or not the District is under an obligation to maintain the trust principal. Agency funds generally are used to account for assets that the District holds on behalf of others as their agent, and do not include measurement of results of operations.

### NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

<u>Agency Fund</u> - The Agency Fund is the School Activities Fund which is used to account for monies collected principally through fundraising efforts of the students and District sponsored groups. The administration is responsible, under the authority of the Board, for collecting, disbursing, and accounting for these activity funds.

### Account Groups

Account Groups are not funds and consist of a self-balancing set of accounts used only to establish accounting control over long-term debt and general fixed assets not accounted for in Proprietary Funds.

General Long-Term Debt Account Group - This account group was established to account for all long-term debt of the District, which is offset by the amount available in the Debt Service Funds and the amount to be provided in future years to complete retirement of the debt principal. It is also used to account for liabilities for compensated absences and early retirement incentives which are to be paid from funds provided in future years. Leases classified as capital in nature are also included in this account group.

General Fixed Asset Account Group - This account group is used to account for property, plant, and equipment of the School District. The district does not maintain a record of its general fixed assets, and accordingly, a statement of general fixed assets, required by accounting principles generally accepted in the United States of America, is not included in the financial statements. Land, buildings, nonstructural improvements, and all other physical assets in all funds are considered expenditures in the year of acquisition and are not recorded as assets for financial statement purposes.

### Memorandum Only - Total Column

The total column on the financial statements is captioned "memorandum only" to indicate that it is presented only to facilitate financial analysis. Data on this column does not present financial position or results of operations in conformity with accounting principles generally accepted in the United States of America. Neither is such data comparable to a consolidation. Interfund eliminations have not been made in the aggregation of this data.

### C. BASIS OF ACCOUNTING

The District prepares its financial statements in a presentation format that is prescribed by the Oklahoma State Department of Education. This format is essentially the generally accepted form of presentation used by state and local governments prior to the effective date of GASB Statement No. 34, Basic Financial Statements - and Management's Discussion and Analysis - for State and Local Governments. This format significantly differs from that required by GASB 34.

### NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

### C. BASIS OF ACCOUNTING (continued)

The basic financial statements are essentially prepared on a basis of cash receipts and disbursements modified as required by the regulations of the Oklahoma State Department of Education (OSDE) as follows:

- Encumbrances represented by purchase orders, contracts, and other commitments for the expenditure of monies and are recorded as expenditures when approved. Investments and inventories are recorded as assets when purchased.
- Capital assets in proprietary funds are recorded when acquired and depreciated over their useful lives,
- Warrants payable are recorded as liabilities when issued.
- Long-term debt is recorded when incurred.
- Accrued compensated absences are recorded as an expenditure and liability when the obligation is incurred.

This regulatory basis of accounting differs from accounting principles generally accepted in the United States of America, which require revenues to be recognized when they become available and measurable, or when they are earned, and expenditures or expenses to be recognized when the related liabilities are incurred for governmental fund types; and, when revenues are earned and liabilities are incurred for proprietary fund types and trust funds.

### D. BUDGETS AND BUDGETARY ACCOUNTING - ESTIMATE OF NEEDS

The District is required by state law to prepare an annual budget. A preliminary budget must be submitted to the Board of Education by December 31 for the fiscal year beginning the following July 1. If the preliminary budget requires an additional levy, the District must hold an election on the first Tuesday in February to approve the levy. If the preliminary budget does not require an additional levy, it becomes the legal budget. If an election is held and the taxes are approved, then the preliminary budget becomes the legal budget. If voters reject the additional taxes, the District must adopt a budget within the approved tax rate. A budget is legally adopted by the Board of Education for the General Fund and Special Revenue Funds (Building Fund and Child Nutrition Fund) that includes revenues and expenditures.

The 2012-2013 Estimate of Needs was approved by the Board and subsequently filed with the county clerk. The Estimate of Needs was approved by the excise board and the requested levies were made.

### NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

### E. ENCUMBRANCES

Encumbrances represent commitments to unperformed contracts for goods or services. Encumbrance accounting—under which purchase orders and other commitments of resources are recorded as expenditures of the applicable fund—is utilized in all governmental funds of the District. Appropriations not used or encumbered lapse at the end of the year.

### F. ASSETS, LIABILITIES, AND FUND EQUITY

<u>Cash and Cash Equivalents</u> - The District considers all cash on hand, demand deposits, and highly liquid investments, with an original maturity of three months or less when purchased, to be cash and cash equivalents.

<u>Investments</u> - Investments consist of bank certificates of deposit with maturities greater than three months when purchased. All investments are recorded at cost, which approximates market value.

<u>Inventories</u> - The value of consumable inventories at June 30, 2013, is not material to the financial statements. Purchases for inventory items are considered expenditures at the time the items were encumbered.

<u>Fixed Assets and Property, Plant, and Equipment</u> - The General Fixed Asset Account Group is not presented. The amount that should be recorded in the General Fixed Asset Account Group is not known.

Compensated Absences - Vested or accumulated vacation leave that is expected to be liquidated with expendable available financial resources has not been reported as an expenditure or a fund liability of the governmental fund that will pay it since the combined financial statements have been prepared on the regulatory basis of accounting. Vested accumulated rights to receive sick pay benefits have not been reported in the General Long-Term Debt Account Group since the combined financial statements have been prepared on the regulatory basis of accounting. These practices differ from accounting principles generally accepted in the United States of America.

In accordance with the provisions of State of Financial Accounting Standards No. 43, Accounting for Compensated Absences, no liability is recorded for nonvesting accumulating rights to receive sick pay benefits. Vested accumulated rights to receive sick pay benefits have been reported in the General Long-Term debt Account Group since none of the vested sick leave is expected to be liquidated with expendable available financial resources.

### NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

### F. ASSETS, LIABILITIES, AND FUND EQUITY (Continued)

Long-Term Debt - Long-Term Debt is recognized as a liability of governmental fund when due, or when resources have been accumulated in the Debt Service fund for payment early in the following year. For other long-term obligations, only that portion expected to be financed from expendable available financial resources is reported as a fund liability of a governmental fund. The remaining portion of such obligations is reported in the General Long-Term Debt Account Group when applicable.

Fund Balance - Fund Balance represents the funds not encumbered by purchase order, legal contracts, and outstanding warrants.

### G. REVENUES, EXPENSES, AND EXPENDITURES

Property Tax Revenues - The district is authorized by state law to levy property taxes which consist of ad valorem taxes on real and personal property within the District. The county assessor, upon receipt of the certification of tax levies from the county excise board, extends the tax levies on the roll for submission to the county treasurer prior to October 1. The county treasurer must commence tax collection within fifteen days of receipt of the tax rolls. The first half of taxes are due prior to January 1. The second half is due prior to April 1.

If the First payment is not made timely, the entire tax becomes due and payable on January 2. Second half taxes become delinquent on April 1 of the year following the year of assessment. If not paid by the following October 1, the property is offered for sale for the amount of taxes due. The owner has two years to redeem the property by paying the taxes and penalty owed. If at the end of two years the owner has not done so, the purchaser is issued a deed to the property.

<u>State Revenues</u> - Revenues from state sources for current operations are primarily governed by the state aid formula under the provisions of Article XVIII, Title 70, Oklahoma Statutes. The State Board of Education administers the allocation of state aid funds to school districts based on information accumulated from the districts.

After review and verification of reports and supporting documentation, the State Department of Education may adjust subsequent fiscal period allocations of money for prior year errors disclosed by review. Normally, such adjustments are treated as reductions or additions of revenue of the year when the adjustment is made.

The District receives revenue from the State to administer certain categorical educational programs. State Board of Education rules require that revenue earmarked for these programs be expended only

### NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

### G. REVENUES, EXPENSES, AND EXPENDITURES (Continued)

for the program for which the money is provided and require that the money not expended as of the close of the fiscal year be carried forward into the following year to be expended for the same categorical programs. The State Department of Education requires that categorical educational program revenues be accounted for in the General Fund.

Interfund Transactions - Quasi-external transactions are accounted for a revenues, expenditures, or expenses. Transactions that constitute reimbursements to a fund or expenditures/expenses initially made from it that are properly applicable to another fund are recorded as revenues, expenditures, or expenses in the fund that is reimbursed.

All other interfund transactions, except quasi-external transactions and reimbursements, are reported as transfers. Nonrecurring or nonroutine permanent transfers of equity are reported as residual equity transfers. All other interfund transfers are reported as operating transfers. There were no operating transfers.

<u>Use of Estimates</u> - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Accordingly, actual results could differ from those estimates.

<u>Risk Management</u> - The district participates in a risk pool for workers' compensation coverage in which there is a transfer or pooling of risks among the participants of that pool. In accordance with GASB No. 10, the District reports the required contribution to the pool, net of refunds, as insurance expense.

### NOTE 2: CASH AND INVESTMENTS

The District's investment policies are governed by state statute. Permissible investments include direct obligations of the United States Government and Agencies, certificates of deposit of savings and loan associations, and bank and trust companies, savings accounts or savings certificates of savings and loan associations, and trust companies. Collateral is required for demand deposits and certificates of deposit for all amounts not covered by federal deposit insurance.

In accordance with state statutes, the District's investment policy:

<u>Deposits and Investments</u> - The District's cash deposits and investments at June 30, 2013, were completely insured or collateralized by federal deposit insurance, direct obligations of the United States Government, or securities held by the District or by its agent in the District's name.

Therefore, the District's cash deposits and investments at June 30, 2013, were not exposed to Custodial Credit Risk, Investment Credit Risk, Investment Interest Rate Risk, or Concentration of Investment Credit Risk.

### NOTE 4: INTERFUND RECEIVABLES AND PAYABLES

There were no interfund receivables or payables at June 30, 2013.

### NOTE 5: GENERAL LONG-TERM DEBT

State Statutes prohibit the District from becoming indebted in an amount exceeding the revenue to be received for any fiscal year without approval by the District's voters.

At June 30, 2013 the District has no long term debt.

### NOTE 6: OTHER POST EMPLOYMENT BENEFITS

The District does not offer any early retirement incentive plans.

### NOTE 7: EMPLOYMENT RETIREMENT SYSTEM

The District participates in the state administered Oklahoma Teacher's Retirement System (The "System"), which is a cost-sharing, multiple employer public employee retirement system (PERS). Under the system contributions are made by the District, the State of Oklahoma, and the participating employees.

Participation is required for all teachers and other certified employees, and is optional for all other regular employees of public educational institutions who work at least 20 hours per week. A participant's date of membership is the date the first contribution is made to the System. The System is administered by a Board of Trustees which acts as a fiduciary for investing the funds and governing the administration of the System. The District has no responsibility or authority for the operation and administration of the System, nor has it any liability, except for the current contribution requirements.

A participant with five years of creditable service may retire with a normal retirement allowance at the age of sixty-two or with reduced benefits as early as age fifty-five. If joining the system before 1992, the normal retirement allowance paid monthly for life and then to beneficiaries, if certain options are exercised, equals two percent of the average of the highest three earning years (if under \$40,000.00 of compensation) of contributory service multiplied by the number of years of credited service. If joining the system after 1992, the normal retirement allowance paid monthly for life and then to beneficiaries, if certain options are exercised, equals two percent of the average of the highest five consecutive year of contributory service multiplied by the number of years of credited service. A participant in the system whose compensation is over \$40,000.00, the normal retirement benefit, is calculated using a two tier calculation. Tier one calculation is equal to two percent of \$40,000.00

### NOTE 7: EMPLOYMENT RETIREMENT SYSTEM (continued)

times the number of years of credited service before July 1, 1995. Tier two calculation is equal to two percent of the appropriate three or five year average earnings times the number of years of credited service after July 1, 1995. A participant leaving employment before attaining retirement age, but completing ten years of service, may elect to vest his accumulated contributions and defer receipt of a retirement annuity until a later date. When a participant dies in active service and has completed ten years of credited service, the beneficiary is entitled to a death benefit of \$18,000.00 and the participant's contributions plus interest. If the beneficiary is a surviving spouse, the surviving spouse may, in lieu of the death benefit, elect to receive, subject to the surviving spousal options, the participant's retirement benefits accrued at the time of death.

The member, employer, and State contribution rates are established by law and applied to the employee's earnings, plus employer paid fringe benefits. The contribution rate for the year end June 30, 2013 was 9.50%. In addition, the State of Oklahoma contributes 5.00% of revenues and sales taxes, use taxes, corporate income taxes and individual taxes and lottery proceeds.

The compensation for employees covered by the System for the year ended June 30, 2013 was \$1,130,968; the District's total compensation was \$1,351,972. Total contributions made during the year ended June 30, 2013 by the District amounted to \$156,359 which represents \$91,985 for the 9.50% statutory and \$64,374 for the 7% contribution paid by the employees. These contributions represented 13.8% of covered compensation. The District is required to match the retirement paid on salaries paid with federal funds.

The District's contributions to the System for the years ending June 30, 2013, 2012, and 2011 were \$156,359, \$148,591, and \$130,693, respectively.

The pension benefit obligation is a standardized disclosure measure of the present value of pension benefits. This pension valuation method reflects the present value of estimated pension benefits that will be paid in future years as a result of employee services performed to date, and is adjusted for the effect of projected salary increases. There are no actuarial valuations performed on individual school districts.

The Oklahoma Teacher Retirement System issues an independent financial report, financial statements, and required supplementary information that can be obtained in writing at the Oklahoma Teacher's Retirement System, P.O. Box 53524, Oklahoma City, OK 73152 or by calling 405-521-2387.

### NOTE 7: EMPLOYMENT RETIREMENT SYSTEM (continued)

Ten year historical trend information is presented in the Teacher's Retirement System of the Oklahoma Annual Report for the year ended June 30, 2013. This information is useful in assessing the pension plan's accumulation of sufficient assets to pay pension benefits as they become due.

### NOTE 8: CONTINGENCIES AND OTHER COMMITMENTS

Amounts received or receivable from grantor agencies are subject to audit and adjustment by grantor agencies. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. The amount, if any, of expenditures which may be disallowed by the grantor cannot be determined at this time although the District expects such amounts, if any, to be immaterial.

### NOTE 9: INSURANCE COVERAGE

The District purchases commercial insurance policies covering property casualty loss, public liability, school board member and administrator liability, and workers' compensation. The District also purchased the following surety bonds: Terry May (Purchasing Agent) \$100,000 dated 06/19/12-06/19/13, Terry Mays (Custodian of Hot Lunch Fund) \$100,000 dated 07/12/12-07/12/13, Tricia Christie (Custodian of Activity Fund) \$5,000 dated 09/25/12-09/25/13, Sharon Cone (Encumbrance Clerk) \$100,000. dated 07/01/12-07/01/13. All bonds were through Western Surety.

# REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF COMBINED FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

The Honorable Board of Education Rocky Mountain School District No. CO24 Adair County, Oklahoma

I have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, the accompanying fund type and account group financial statements regulatory basis of Rocky Mountain School District No. CO24, Oklahoma as listed in the Table of Contents, as of and for the year ended June 30, 2013, and the related notes to the financial statements, and have issued my report thereon dated October 29, 2013, which was adverse with respect to the presentation of the financial statements in conformity with the regulatory basis of accounting for Oklahoma school districts and did not conform to the presentation requirements of the Governmental Accounting Standards Board. However, my report was qualified for the omission of general fixed asset account groups with respect to the presentation of financial statements on the regulatory basis of accounting authorized by the Oklahoma State Board of Education.

### Internal Control Over Financial Reporting

In planning and performing my audit of the financial statements, I considered Rocky Mountain School District No. CO24's internal control over financial reporting to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing my opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Rocky Mountain School District No. CO24's internal control. Accordingly, I do not express an opinion on the effectiveness of the Rocky Mountain School District No. CO24's internal control.

A deficiency in internal control exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material misstatement of the entity's financial statement will not be prevented, or detected and corrected, on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

My consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in the internal control that might be significant deficiencies or material weaknesses. Given these limitations during my audit, I did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

### Compliance and Other Matters

As part of obtaining reasonable assurance about whether Rocky Mountain School District No. CO24's financial statements are free of misstatement, I performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of my audit and, accordingly, I do not express such an opinion. The results of my tests disclosed no instances of noncompliance or other matters that are required to be reported under Government Auditing Standards.

I noted certain matters that I reported to management of Rocky Mountain School District No. CO24 in a separate letter dated October 29, 2013.

The purpose of this report is solely to describe the scope of my testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's control or compliance. This report is intended solely for the information and use of the Board of Education, management, and all applicable federal and state agencies, and is not intended to be and should not be used by anyone other than these specified parties.

## REPORT ON COMPLIANCE WITH REQUIREMENTS APPLICABLE TO EACH MAJOR PROGRAM AND INTERNAL CONTROL OVER COMPLIANCE IN ACCORDANCE WITH OMB CIRCULAR A-133

The Honorable Board of Education Rocky Mountain School District, No. CO24 Adair County, Oklahoma

### Compliance

I have audited the compliance of Rocky Mountain School District No. CO24 with the types of compliance requirements described in the U.S. Office of Management and Budget (OMB) Circular A-133 Compliance Supplement that is applicable to each of its major federal programs for the year ended June 30, 2013. Rocky Mountain School District No. CO24's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs. Compliance with requirements of laws, regulations, contracts and grants applicable to each of its major federal programs is the responsibility of Rocky Mountain School District No. CO24's management. My responsibility is to express an opinion on Rocky Mountain School District No. I-006's compliance based on my audit.

I have conducted my audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States, and OMB Circular A-133, Audits of States, Local Governments, and Non-Profit Organizations. Those standards and OMB Circular A-133 require that I plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about Rocky Mountain School District No. CO24's compliance with those requirements and performing such other procedures as I considered necessary in the circumstances. I believe that my audit provides a reasonable basis for my opinion. My audit does not provide a legal determination on Rocky Mountain School District No. CO24's compliance with those requirements.

In my opinion, Rocky Mountain School District No. CO24 complied, in all material respects, with the requirements referred to above that are applicable to each of its major federal programs for the year ended June 30, 2013.

### Internal Control Over Compliance

The management of Rocky Mountain School District No. CO24 is responsible for establishing and maintaining effective internal control over compliance with requirements of laws, regulations, contracts and grants applicable to federal programs. In planning and performing my audit, I considered Rocky Mountain School District No. CO24's internal control over compliance with requirements that have a direct and material effect on a major federal program in order to determine my auditing procedures for the purpose of expressing my opinion on compliance and to test and report on internal control over compliance in accordance with OMB Circular A-133.

A control deficiency exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect noncompliance with a type of compliance requirement of a federal program on a timely basis. A significant deficiency is a control deficiency, or combination of control deficiencies, that adversely affects the District's ability to administer a federal program such that there is more than a remote likelihood that noncompliance with a type of compliance requirement of a federal program that is more than inconsequential will not be prevented or detected by the District's internal control.

My consideration of the internal control over compliance would not necessarily disclose all matters in the internal control that might be material weaknesses. A material weakness is a condition in which the design or operation on one or more of the internal control components does not reduce to a relatively low level the risk that noncompliance with applicable requirements or laws, regulations, contracts and grants caused by error or fraud that would be material in relation to a major federal program being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. I noted no matters involving the internal control over compliance and its operation that I consider to be material weaknesses. However, I noted other matters involving the internal control over financial reporting and its operation that I have reported to the School's management in a separate letter dated October 29, 2013.

This report is intended solely for the information of the Board of Education, management, and all applicable federal and state agencies, and is not intended to be and should not be used by anyone other than these specified parties.

### ROCKY MOUNTAIN SCHOOL DISTRICT NO. CO24 SCHEDULE OF FINDINGS AND QUESTIONED COSTS FOR THE YEAR ENDED JUNE 30, 2010

### Section I - Summary of Auditor's Results: Financial Statements

Type of Auditor's Report issued: I have audited the accompanying fund type and account group financial statements - regulatory basis - of Rocky Mountain School District No. CO24, Adair County, Oklahoma as listed in the table of contents, as of and for the year ended June 30, 2013. In my opinion letter, my report was adverse on U.S. Generally Accepted Accounting Principles because the school district prepares its financial statements on a basis of accounting other than accounting principles generally accepted in the United States of America. This basis of accounting is prescribed by the laws of the State of Oklahoma. Also my report was qualified with regard to the prescribed basis of accounting because of the omission of the general fixed asset account group.

### Internal Control Over Financial Reporting:

Material weaknesses identified? NONE REPORTED
Reportable conditions identified not considered to be

material weaknesses?

Noncompliance material to financial statements noted?

NONE REPORTED

NONE REPORTED

Federal Awards

### Internal Control Over Major Programs:

Material weaknesses identified? NONE REPORTED

Reportable conditions identified not considered to be

material weaknesses? NONE REPORTED

### Type of Auditor's Report Issued on Compliance for Major Programs:

In conjunction with the audited combined financial statements-regulatory basis of Rocky Mountain School District No. CO24, Adair County, Oklahoma, as of and for the year ended June 30, 2010, I have issued my unqualified report thereon dated October 7, 2010, on compliance with requirements applicable to each major program and internal control over compliance in accordance with OMB Circular A-133.

Any audit findings disclosed that are required to be reported in accordance with Circular A-133, Section .510(a)?

NONE REPORTED

### Identification of Major Programs:

Title VIII Impact Aid CFDA 84.041	\$181,335.85
Special Projects Demon CFDA 84.299A	197,703.58
Total	\$379,039.43

The dollar threshold used to distinguish between type A and type B programs was \$300,000.00. The percentage of coverage rule was used to achieve 50% of Federal program expenditures.

Auditee qualified as low-risk auditee? YES NO X

### Section II - Financial Statement Findings:

No matters were reported.

### Section III - Federal Award Findings and Questioned Costs:

No questioned costs were identified.
